Summary

Target seems to focus on object that moves through the air. Actually there are more than one object. There are different kinds,

① there are multiple objects that fall downward.

② there are objects resembling fighter planes that go in formation, + triangle shape.

③ there ~~are~~ is a missile type object (see page 6A + 6B) shaped like a human or human falls to the ground. Nazis are most likely involved.

If I was going to go out on a limb and go against everything my CRV teachers tell me to do I'd say the target involves a battle that takes place in the sky involving Nazis, fighter planes, parachutes, missiles, a command center with high level officers & someone of interest that has failed & does not make it.

If I'm wrong then I'm now on a major AOL Drive & please ignore this page. Nazis involved.
